

### 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

<b>Product Name</b>	<b>Euromix™ Sand Finish Texture</b>
<b>Product Code</b>	<b>TEXTSF15</b>
<b>Supplier Name</b>	<b>Euromix Pty Ltd</b> ABN 57 664 946 070
<b>Address</b>	31-33 Water Street, Strathfield South. NSW 2136
<b>Telephone</b>	02 9572 9061
<b>Email</b>	<a href="mailto:contact@euromix.com.au">contact@euromix.com.au</a>
<b>Synonym(s)</b>	Euro Sandfinish Texture, Euromix Sandfinish
<b>Use(s)P</b>	A premixed acrylic texture finish for internal and external decorative, protective wall coating finish. Due to its high build most substrate imperfections can be hidden or obscured

### 2. HAZARDS IDENTIFICATION

**Poisons Schedule:** None allocated.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Product Description:** Surface coating, applied by trowel, coloured viscous liquid

<b>Ingredient</b>	<b>Proportion.</b>	<b>CAS No.</b>
Pigments	0 - 30%	N/A
Synthetic Polymer(s)	10 - 50%	N/A
Sand (Crystalline silica)	20 - 80%	14808-60-7
Water	10 - 40%	7732-18-5
Propylene Glycol	1 - <10%	57-55-6
Ingredients determined not to be hazardous	to 100%	18540-29-9
Pigments	0 - 30%	1302-78-9
Synthetic Polymer(s)	10 - 50%	N/A

### 4. FIRST AID MEASURES

<b>Eye</b>	If in eyes, wash out immediately with water. In all cases of eye contamination, it is a sensible precaution to seek medical advice.
<b>Inhalation</b>	Remove victim from area of exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.
<b>Skin</b>	If skin contact occurs, remove contaminated clothing and wash skin with running water. If irritation occurs seek medical advice.
<b>Ingestion</b>	Rinse mouth with water. If swallowed, give a glass of water to drink. If vomiting occurs give further water. Seek medical assistance or contact Poison Information Centre on 13 11 26.
<b>Advice to Doctor</b>	Treat symptomatically.
<b>First Aid Facilities</b>	Eye wash station.

#### Additional Information - Aggravated Medical Conditions

**Inhalation** Over exposure resulting from prolonged and repeated inhalation of dust containing crystalline silica can cause bronchitis, silicosis (scarring of the lung.) It may also increase the risk of

### 5. FIRE FIGHTING

---

<b>Flammability</b>	Non flammable. Non-combustible material.
<b>Extinguishing</b>	Water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder)..
<b>Hazchem Code</b>	Non-combustible material, however, following evaporation of the water component of the material, the residual material can burn if ignited. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

### 6. ACCIDENTAL RELEASE MEASURES

---

<b>Spillage</b>	Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contact. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal. If contamination of sewers or waterways has occurred advise local emergency services.
-----------------	---

### 7. HANDLING AND STORAGE

---

<b>Storage</b>	Store in cool place and out of direct sunlight. Keep containers closed when not in use - check regularly for leaks.
<b>Handling</b>	Avoid eye contact and repeated or prolonged skin contact.  Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking, and smoking in contaminated areas.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

<b>Exposure Limits</b>	Do not inhale dust/powder. Use with adequate ventilation. Where a dust inhalation hazard exists, mechanical extraction ventilation is recommended. Maintain dust levels below the recommended exposure standard.
<b>PPE</b>	Overalls, Safety Shoes, Safety Glasses, Gloves, Respirator.  Wear overalls, safety glasses and impervious gloves. Use with adequate ventilation. If inhalation risk exists wear organic vapour respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716. Avoid breathing dust when sanding. Wet sand or use a dust mask. Always wash hands before smoking, eating, drinking, or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

---

### 9. PHYSICAL AND CHEMICAL PROPERTIES

---

<b>Physical state:</b>	Viscous liquid
<b>Colour:</b>	Coloured
<b>Solubility:</b>	Miscible with water.
<b>Specific Gravity:</b>	1-1.5kg
<b>Relative Vapour Density (air=1):</b>	Not Available
<b>Vapour Pressure (20 °C):</b>	Not Available
<b>Flash Point (°C):</b>	Not Applicable
<b>Flammability Limits (%):</b>	Not Applicable
<b>Autoignition Temperature (°C):</b>	Not Applicable
<b>% Volatile by Volume:</b>	Not Available
<b>Solubility in water (g/L):</b>	Miscible
<b>Melting Point/Range (°C):</b>	Not Available
<b>Boiling Point/Range (°C):</b>	Not Available
<b>Decomposition Point (°C):</b>	Not Available
<b>pH:</b>	11-13
<b>Viscosity:</b>	Not Available
<b>Evaporation Rate:</b>	Not Available

---

### 10. STABILITY AND REACTIVITY

---

**Stability** No information available.

---

### 11. TOXICOLOGICAL INFORMATION

---

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

**Eye** May be an eye irritant.

**Inhalation** Where this material is used in a poorly ventilated area, at elevated temperatures or in confined spaces, vapour may cause irritation to mucous membranes of the respiratory tract, headache, and nausea. Breathing in mists or aerosols may produce respiratory irritation.

**Skin** Contact with skin may cause irritation.

**Ingestion** No adverse effects expected, however large amounts may cause nausea and vomiting

**Long Term** No information is available for the product. Repeated or prolonged breathing of silica dust may result in chronic lung diseases such as silicosis and potentially lung cancer. However, due to the particle size of the silica (sand) this is not expected to be relevant providing this product is used as recommended and good occupational work practices are observed.

## 12. ECOLOGICAL INFORMATION

**Toxicity** Avoid contaminating waterways.

## 13. DISPOSAL CONSIDERATIONS

**Waste Disposal** Reuse or recycle where possible. Refer to Waste Management Authority. Dispose of material through a licensed waste contractor. Normally suitable for disposal at approved land waste site.

**Legislation** Dispose of in accordance with relevant local legislation. Keep out of sewer and stormwater drains.

## 14. TRANSPORT INFORMATION

Not classified as a dangerous good by the criteria of the ADG Code.

Drivers of trucks transporting bagged product should ensure that the bags are properly restrained.

**Road & Rail Transport** Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.

**Marine Transport** Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

## 15. REGULATORY INFORMATION

**Classification** Based on available information, not classified as hazardous according to criteria of NOHSC  
**Poisons Schedule** None allocated.  
**AICS** All chemicals listed on the Australian Inventory of Chemical Substances (AICS).

## 16. OTHER INFORMATION

**Additional Info** RESPIRATORS: In general, the use of respirators should be limited and engineering controls employed to avoid exposure. If respiratory equipment must be worn ensure correct respirator selection and training is undertaken. Remember that some respirators may be extremely uncomfortable when used for long periods. The use of air powered, or air supplied respirators should be considered where prolonged or repeated use is necessary.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES: The Recommendation for protective equipment contained within this SDS report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE: It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare an SDS report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

**ABBREVIATIONS:**

SDS – Safety Data Sheets

N/A – Not Applicable

pH – relates to hydrogen ion concentration – this value will relate to a scale of 0 – 14, where 0 is highly acidic and 14 is highly alkaline.

CAS# - Chemical Abstract Service Number – used to uniquely identify chemical compounds.

**Report Status**

This document has been compiled by Euromix Trading Pty Ltd the manufacturer of the product and serves as the manufacturer's Safety Data Sheet.

While the information in this Safety Data Sheet has been prepared in good faith, Euromix Pty Ltd does not warrant that the information is accurate, complete, or up to date.

**Contact Point**

For further information on this product contact:

Telephone: 02 9572 9061  
Emergency: 13 11 26 (Poison Information Line Australia)  
Email: [contact@euromix.com.au](mailto:contact@euromix.com.au)  
Web site: [www.euromix.com.au](http://www.euromix.com.au)

**Advice Note**

The information in this document is believed to be accurate. Please check the currency of this SDS by contacting:
